

ENVIRONMENTAL POLICY STATEMENT

APiC UK Limited design, manufacture and install architectural glazing systems in commercial applications within the construction industry on a national basis. The company operates from two sites in Smethwick and West Bromwich, in the West Midlands, which are in very close proximity to each other.

The senior management of APiC UK Limited recognises that its operations, activities, products and services do have an impact on the environment. Through its Environmental Management Systems and the conduct of its business operations, APiC UK Limited is committed to the prevention of pollution and continually improving its environmental performance and will:

- Comply with all relevant environmental legislation, regulations and other requirements which relate to the company's environmental aspects
- Seek to reduce environmental impact and prevent pollution in the formulation of its products and the operation of its manufacturing process promoting where possible the use of recyclable materials
- Set and review on a regular basis, environmental objectives and targets in order to ensure continual improvement
- Train all employees in their personal environmental responsibilities
- Communicate the APiC UK Limited Environmental Policy to all persons working for or on behalf of the company, the public, stakeholders, partners, contractors and suppliers
- Make this Environmental Policy available to our customers and the public on request

This Policy will be implemented within the framework of an environmental management system designed to meet the requirements of BS EN ISO 14001, to which the company will seek certification by mid 2009.
